All fish species must be nominated and accepted prior to commencement, and once selected fish cannot be changed for the duration of the season. For existing members submit your list for entry prior to or on the first fishing weekend of 2014 (25 January) or at the first tying night (13 Feb 2014). Competition is decided on the most species caught and if no winner is found then by the most points accumulated. All fish to be caught on typical fly fishing equipment. ANSA factors will apply in instances where competitors have caught the same number of fish.

Fish can be captured at any time and must be of a legal size ANSA or State law which ever is applicable. Proof of capture is by either a digital photo or signed sheet by fellow fisher. To be eligible photos must be submitted by 13 November 2014
